ONBOARDING

3 ways to do onboarding

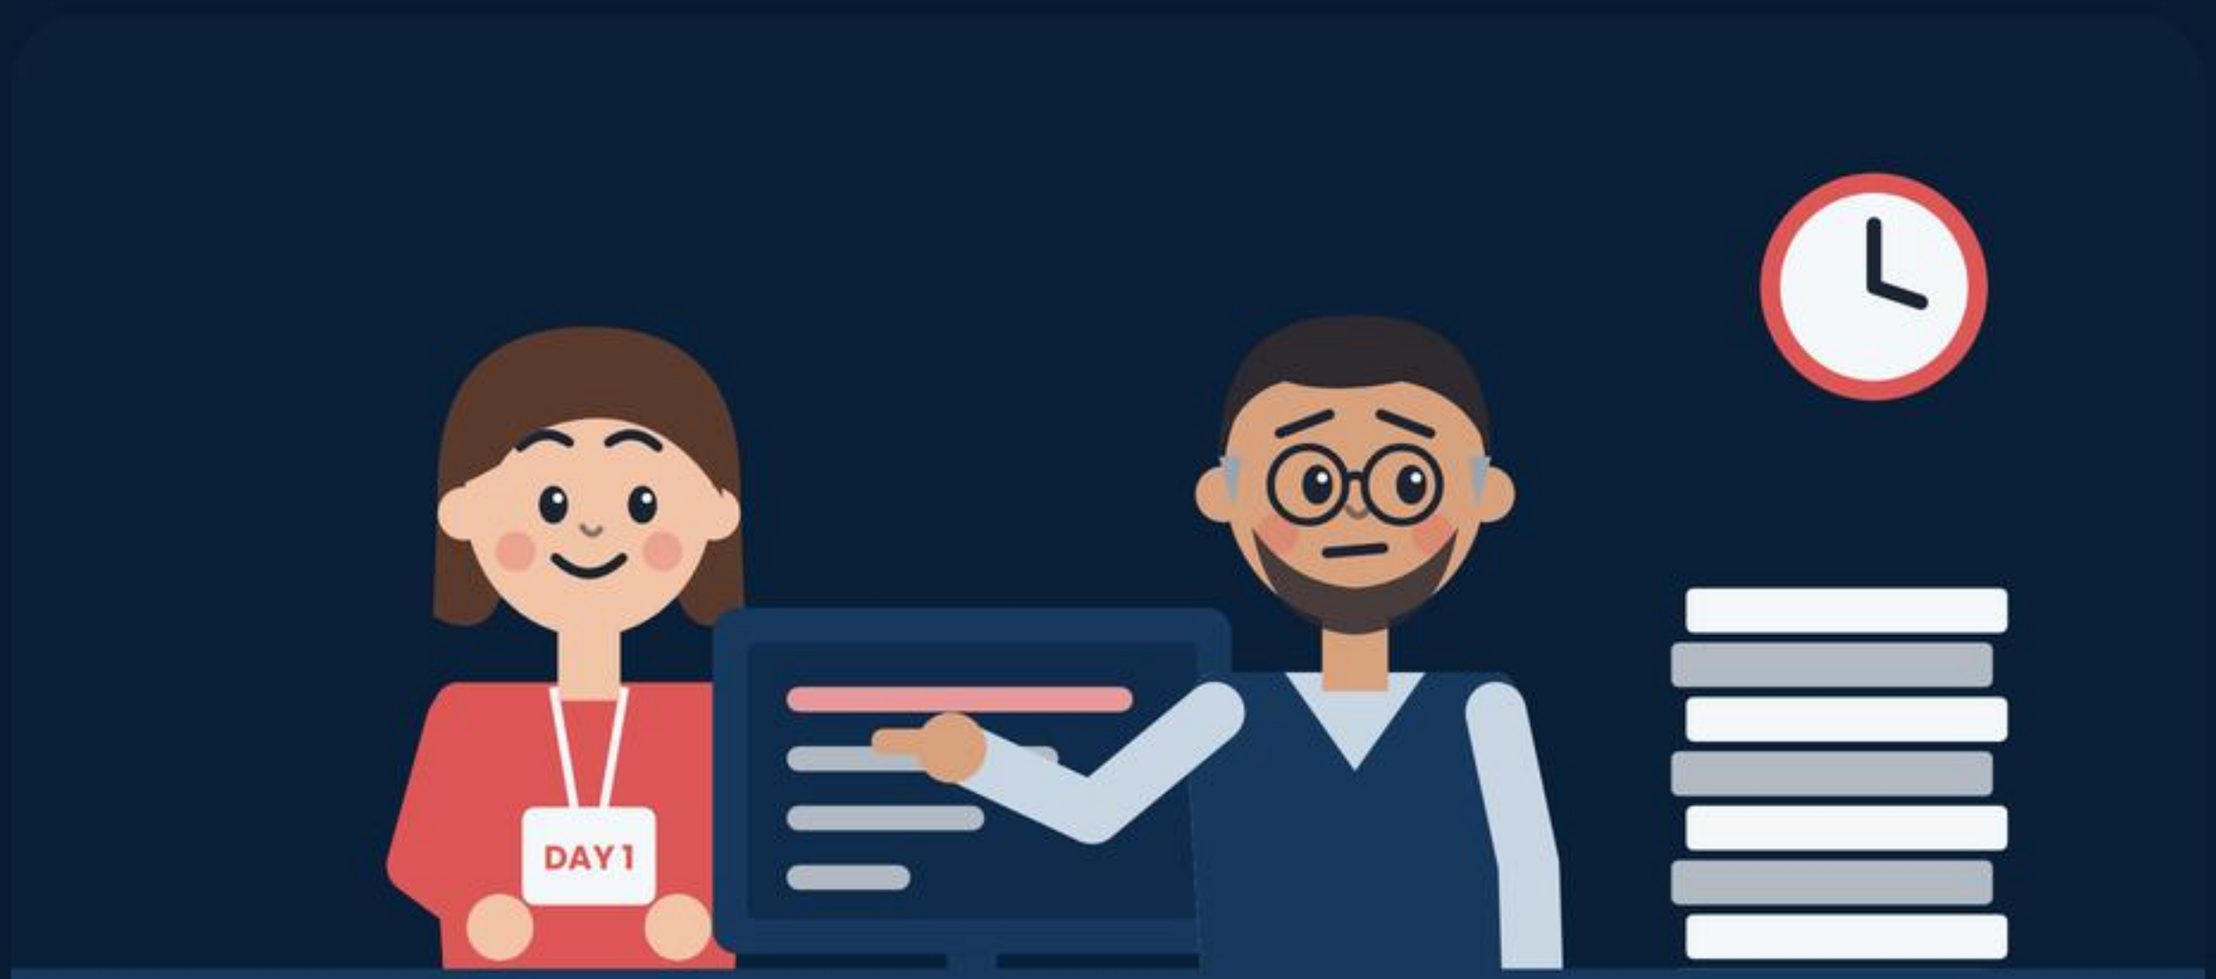

ludogic.dev

01

Instructor-led

A senior colleague teaches the new employee in person.

- ✓ It feels personal and questions get answered on the spot.
- ✗ It eats up senior staff's time and has to be repeated with every new hire.

Laura, day one

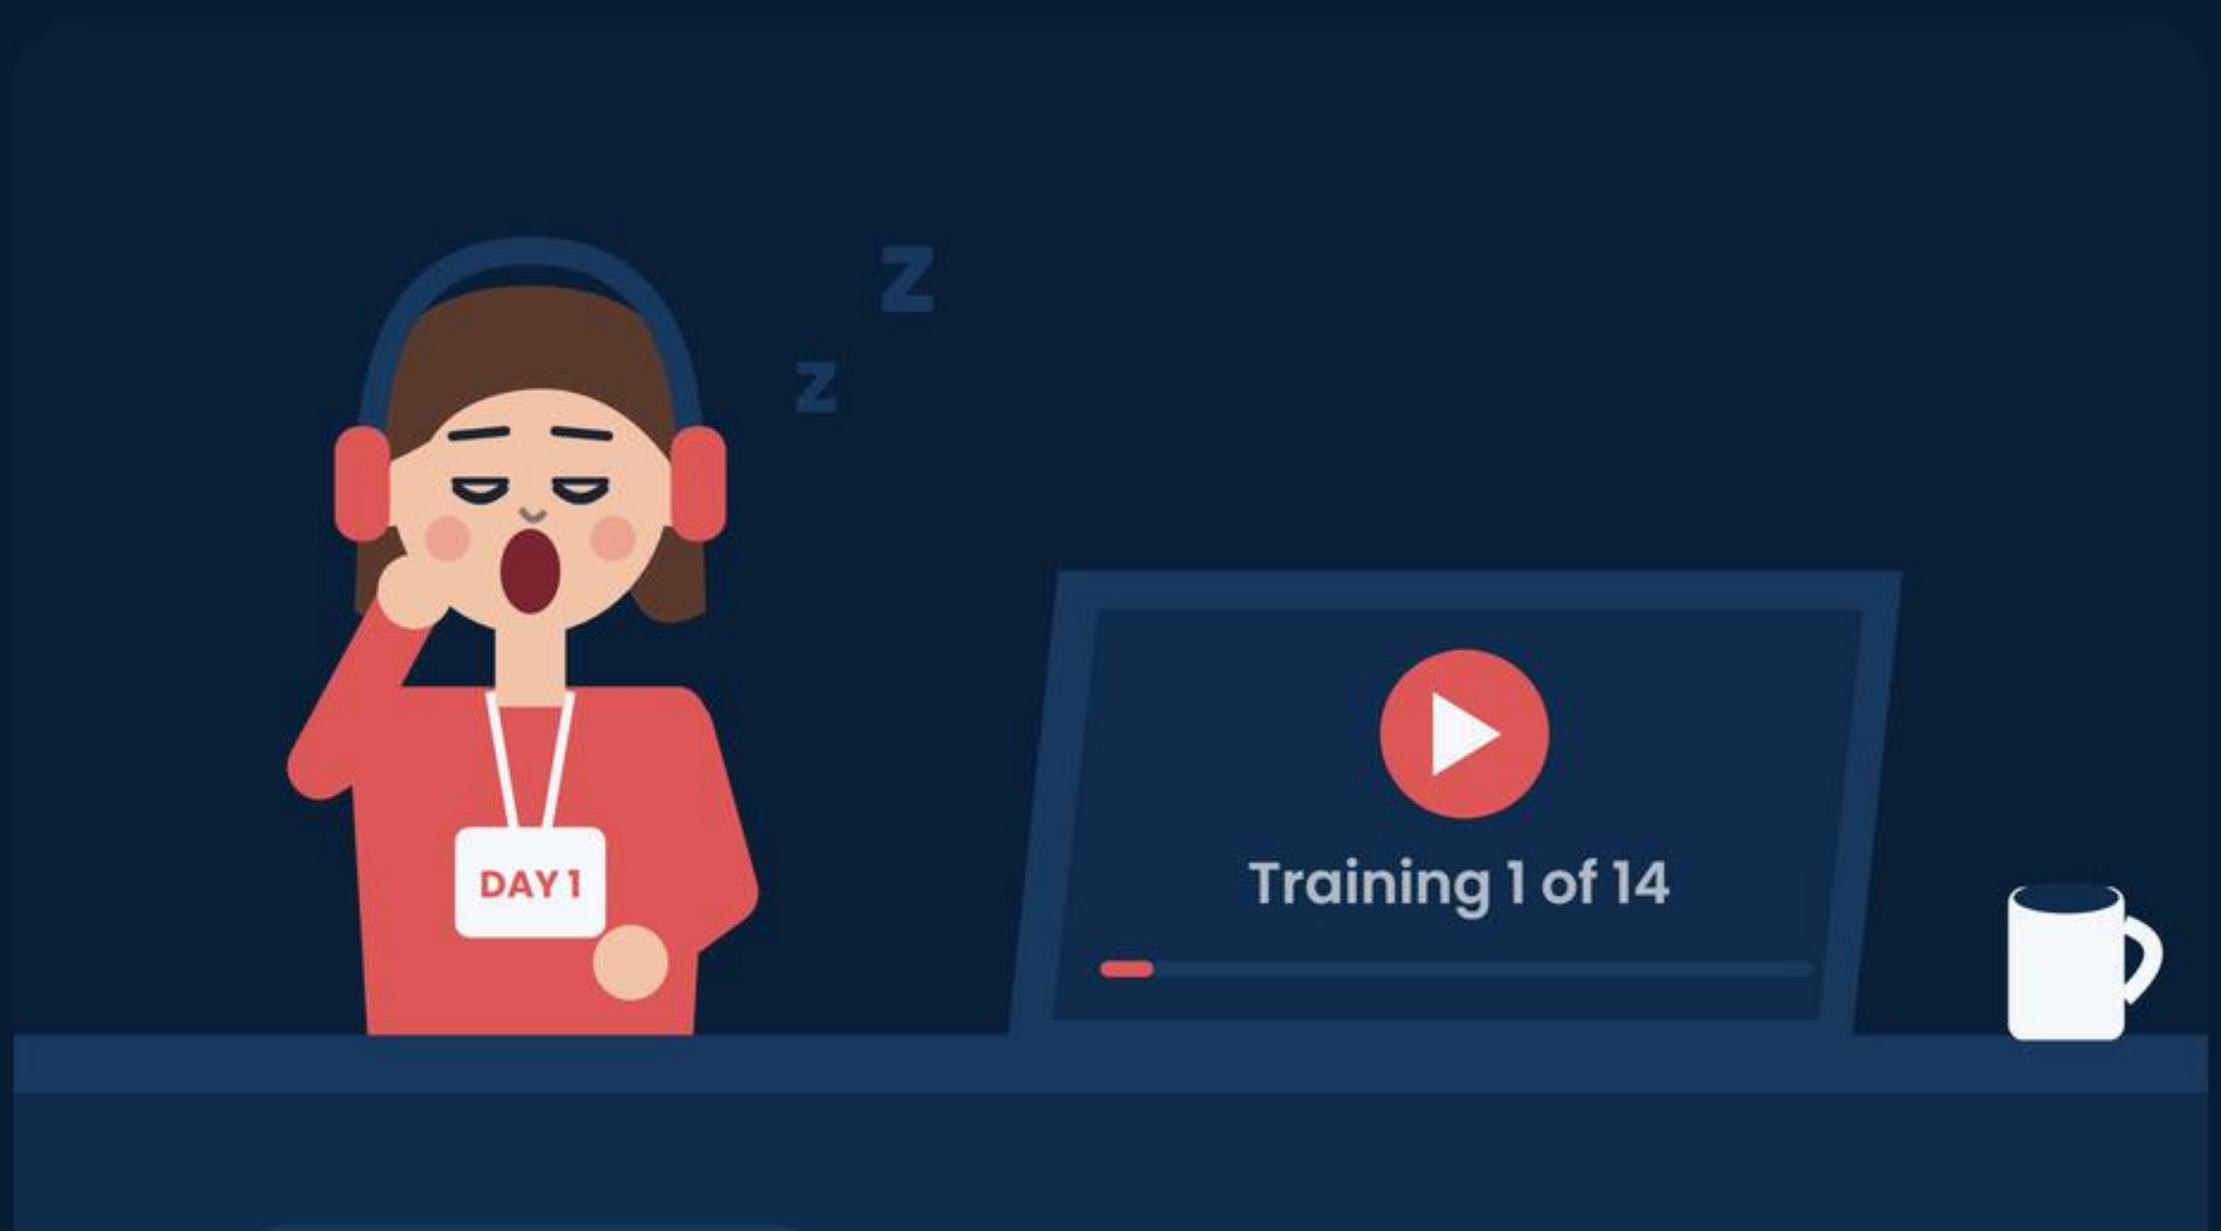

Javi, 8 years here

02

Recorded

Videos or documents new employees go through on their own.

- ✅ Recorded once, everyone gets the same information.
- ❌ It's passive: hard to stay focused and remember what you watched.

Laura, day one

03

Gamified

Self-paced content turned into challenges, step-by-step progress and group dynamics.

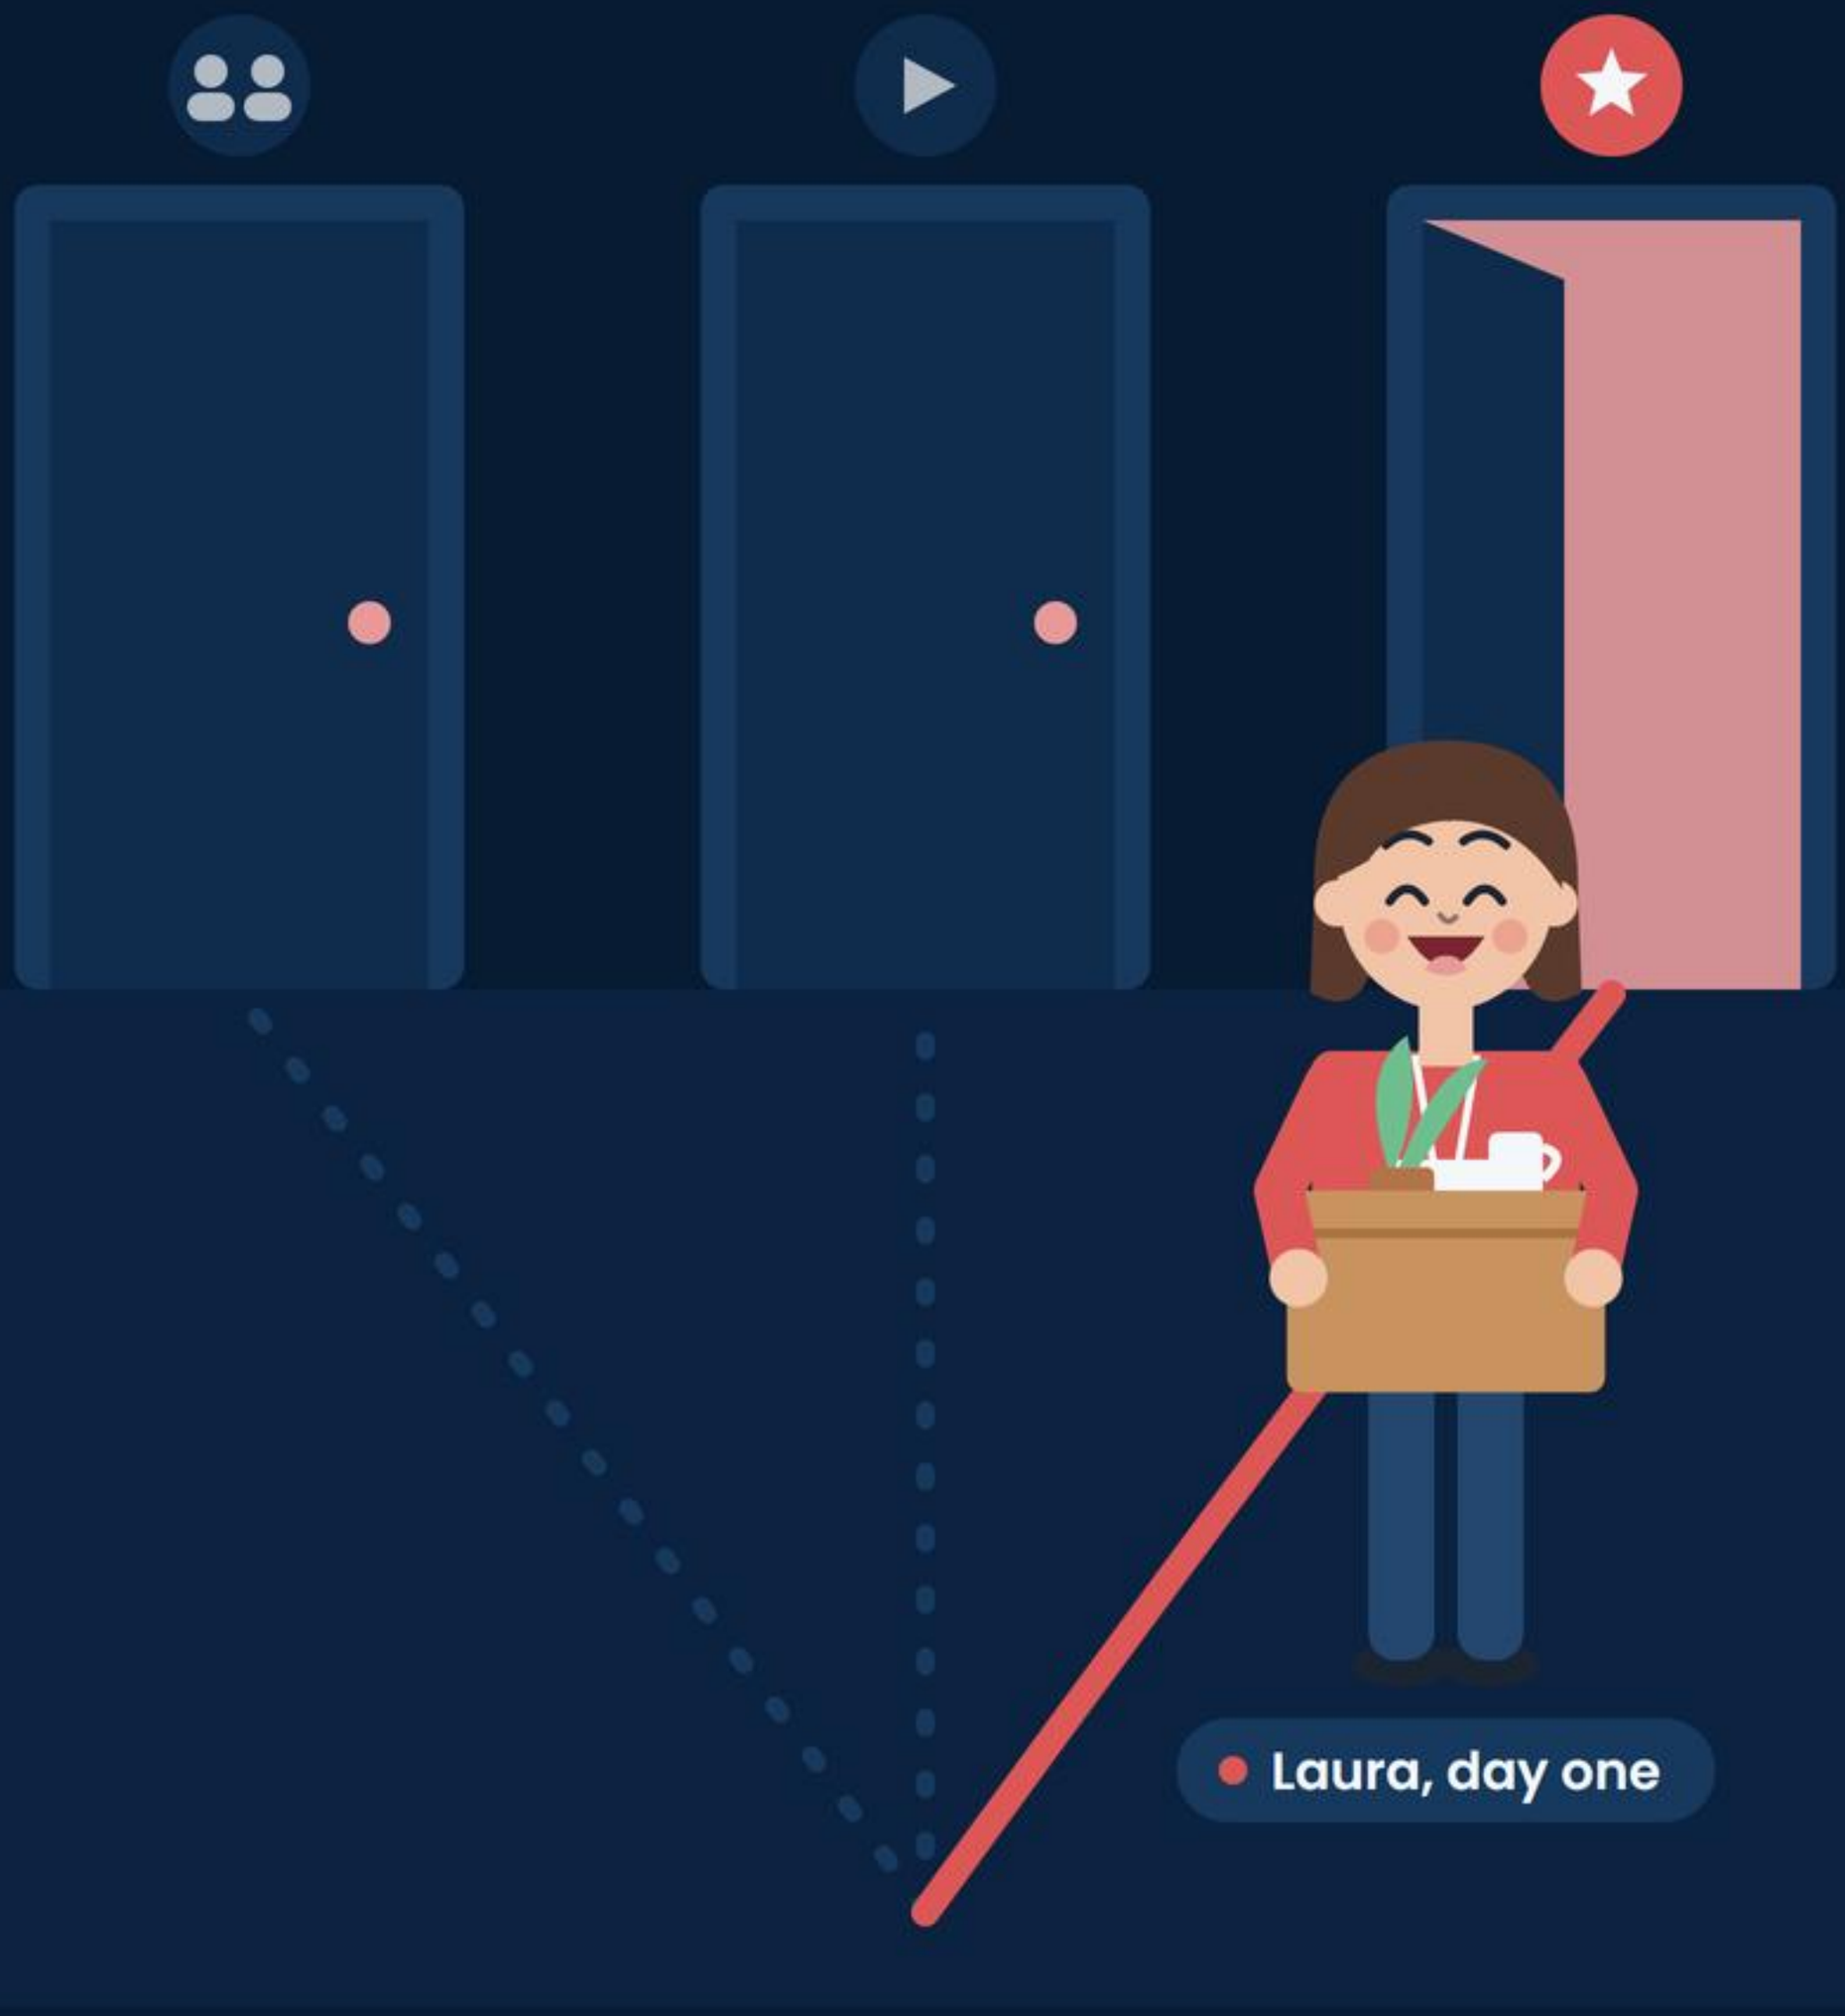

- ✅ New hires learn at their own pace, remember more and bond with the team; seniors only supervise.
- ❌ It needs an initial investment that pays off as new hires join.
